Globes mean the world to us

Your Globe is a treasured possession...

...through childhood to teach you the countries and cities of the world and later to demonstrate the physical features of our planet Earth. Your globe may be a decorative feature that is useful to identify places and events or an enlightening reference that will grace any lounge or library.

Our catalogue offers the widest choice of globe models anywhere in the world. We offer globes that are cartographically accurate from moderately priced models to heirloom and designer pieces.

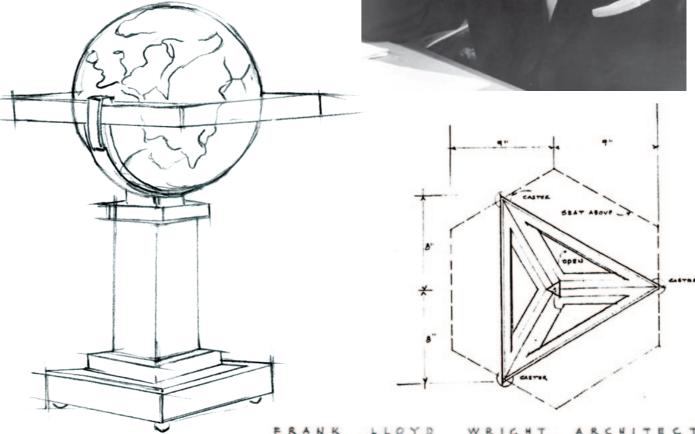

Frank Lloyd Wright (1867-1959) is an internationally celebrated architect and widely considered to be America's greatest. He amazed the world with his architectural ingenuity and designs. His vision encompassed the buildings and residences he designed as well as their landscaping, art glass, furniture, lighting and floor covering, to create the unified whole.

This collection presented by Replogle Globes is inspired by Wright's unique and timeless interior home designs and includes a reproduction of the actual globe stand designed by Wright. Each globe is a unique piece of art.

The Frank Lloyd Wright Collection product is authorised by the Frank Lloyd Wright Foundation, Taliesin West, Scottsdale, Arizona, U.S.A. "Frank Lloyd Wright", "Frank Lloyd Wright Collection" and the Frank Lloyd Wright signature and photograph are trademarks of the Frank Lloyd Wright Foundation and are used with permission.

A unique individual A unique partnership A unique product

Obelisk

An adaptation of one of Mr Wright's vase designs developed in 1929 for Leerdam Glassfabrik in Germany. The Obelisk stands tall and proud on its solid maple and cherry hardwood plinth.

W.	20.5"	(52cms)	16"	
D.	16"	(40ms)	40cm	RAISED RELIEF
Н.	50"	(127cms)	400111	

Wright

This globe stand is an authentic reproduction from a drawing found in the Frank Lloyd Wright Foundation archives. It is an unidentified concept for one of the Prairie Homes that Wright designed in the early 1900s. The proportions and interpretation of the drawing were calculated based on the scale of other drawings from the same time period. This globe features a square yoke design, with the square theme carried through to the base. The globe ball is fully up-to-date with an antique ocean style.

Н.	39"	(98cms)	400111	TO HOLD FILLE

Barrel Chair

This globe stand is an adaption of one of the most universally recognised furniture designs found in the Frank Lloyd Wright Foundation archives. It is a modified version of the famous 'Barrel Chair' originally designed by Frank Lloyd Wright in 1903 and modified for his own personal use. The globe is cradled in a beautifully constructed wooden stand which is open at the front to give full access to the 16" bronze globe ball with up-to-date mapping. This is an outstanding and unique piece of furniture that would grace any home or office.

(93cms)

Diplomat

Search the world over and you will not find a better example of the globemaking art. A handcrafted masterpiece, this extraordinary globe features lavish attention to both form and function. Distinctive details include rich, ten-colour cartography on hand-laid map and a solid brass, hand-engraved meridian. The handcrafted, solid mahogany cradle mounting rubbed to a lustrous walnut-finish further emphasises the Diplomat's uncommon beauty. A comprehensive 80cm diameter globe ball featuring over 20,000 place names ranks the Diplomat as the world's most detailed globe. A perfect blend of aesthetics and function. Available in antique or blue ocean style. Designed and assembled in the USA.

Gea New Ocean Globes

Mercatore

The Mercatore comes in 2 colourways and 2 sizes. Choose between the antique rose ocean or a blue ocean and 50 cm or 60 cm diameter. This traditional classic has a metal meridian and solid hardwood stand. Designed and manufactured in the EU.

Art 809

The Art 809 features a 24" globe ball with good detail and a metal meridian. This globe is ideal for those who like true antique replica style with the functionality of a modern map. Manufactured in the EU.

Total Diameter	(78.5cms)
Height	(95cms)

The Art 823, with its antique up to date map, metal meridian and solid hardwood stand, is a classic floor standing globe with traditional charm.. Manufactured in the EU.

Total Diameter	(64.5cms)	20"
Height	(90cms)	50cm

Columbo

The Columbo combines grandeur and contemporary styling. Choose between the antique rose ocean with copper coloured metal stand or a blue ocean with anthracite coloured metal stand and 50 cm or 60 cm diameter. Manufactured in the EU.

Period Classics

Marin

Handcrafted warmth. This distinctive stand is handcrafted from wrought iron with a rustic textured finish. A 40cm diameter antique ocean globe with raised-relief and an antique style die-cast meridian complete this contemporary interpretation.

Forum

Since ancient times, the column has stood as a functional and decorative standard. This all-metal globe base is reminiscent of that form, yet it is crafted to reflect modern design. The three round black-metal legs are supported and capped by tiered discs wrought from the same steel. This globe is an elegant addition to any living room, study, office or reception area.

Z offoli Srl, based in Rimini, Italy, has been manufacturing bar globes for three generations, utilising skills that have been handed down father to son. Although today's production is a modern affair, the same care and attention is given to each piece to ensure that it is manufactured to a very high standard, including solid wooden legs on the entire range. Craftsmen still add the finishing touches by hand to give each globe that personal touch of class. A certificate of authenticity is supplied with each Zoffoli bar globe.

Mini Globes & Inflatables

Wonder Globe

Endless rotations. Spin Spin Spin! It's all in the Spin! This little 'Wonder' offers an exceptionally smooth rotation on 2 axes. The 11cm diameter globe features a detailed easy-to-read map indicating political borders and capital cities. Teachers, corporate executives, and children of all ages will enjoy hours of learning while experiencing the amazing dynamics of this wonderful globe.

Stellan range of Rotating Globes

These globes cleverly spin on two axes with five models to collect. Although a miniture 10cm diameter, they are very clearly printed and are a source of endless fascination to children or adults.

Who said learning isn't fun? These inflatable globes are fun to play with and a great way to learn about the world we live in. An interesting choice of globes in three sizes. Each globe is brilliantly coloured and excellent value.
